

# Year 1 UK Geography

## Local Geography

### Key Learning

We live in **England**.

The capital England is **London**.

The United Kingdom is made up of 4 countries **England, Scotland, Wales and Northern Ireland**.

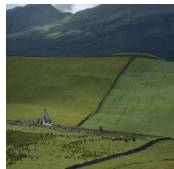

The United Kingdom is an island surrounded by seas.

Rivers and streams are shown as **blue lines**.

Our school is in the town of Little Hulton. A town is bigger than a village but smaller than a city.

Different parts of the country look different. Some places have lots of physical features and

Rural areas are mainly countryside, they have few homes or other buildings and few people live there.

Urban areas are in a city or town. Lots of people live there and there are lots of buildings close together.

As well as villages, towns and cities, the United Kingdom has hills and mountains and lots of countryside.

Map symbols are used to show different geographical features on a map.
